## ARHAN Newsletter

### **Clean Room Balancer**

Arhan Technologies Pvt. Ltd. authorized Distributor for Japan's leading spring, tool balancers and Air hoists manufacturer Endo Kogyo Co. Ltd. is introducing the SBC-15 (Patented Design) clean room balancer.

The SBC-15 is a clean room tool balancer used in electronics, computers and pharmaceutical production, as well as the production of other environmental sensitive components. Its specially sealed aluminium case provides a Class 10 protection rating which suits most requirements for clean rooms. In addition the cable is sheathed in nylon to prevent metal flaking and contamination of the clean environment. It can be used with a multitude of tools including torque drivers and vacuum pin setters. These balancers can be fitted with a grounding wire to dissipate static electricity.

The SBC-15 is already in use at all major computers, electronics, and pharmaceutical companies in Japan, USA and Europe.

#### **Features:**

- Designed for Class 10 Clean room working environment
- Static free operations by connecting grounding wires to dissipate electricity
- Tension adjustment is easy and precise
- World class ENDO product quality & reliability (Assured highest operation life than any other balancer)

#### **Models & Specifications**

Model	Capacity (kg)	Cable travel (m)	Weight (kg)
SBC-15	0.5-1.5	1.0	1.2

Endo Kogyo is pioneer in Spring balancers, hose balancers, Air hoists and several other application solutions for material and tool handling. The clean room balancer was designed with requirement from world's leading computer manufacturers.
