**SHINANO Impact Wrenches**

Arhan Technologies Pvt. Ltd. is an authorized Distributor for Japan's Pneumatic Tool manufacturer SHINANO Inc. These pneumatic tools are popular for assembly requirements, Automobile Garage tools (Bikes, Cars, Trucks, Tractors and heavy duty vehicles), and Abrasive tools. The Shinano Inc. Pneumatic tools are worldwide popular for their better cost performance ratio, better quality and longer operation life.

The impact wrenches are available in wide range of different models 3/8", 1/2", 3/4" and 1" square drive to meet your application requirements. They come with compact, lightweight and ergonomic design for easy operation. They have numerous features like rear exhaust from grip-end directs air away from the operator, feather touch trigger/ lever for safe working, and built-in air regulator for easy adjustments

Furthermore these tools have good operation life and they have good cost to performance ratio. These tools are already in use in Indian automobile parts manufacturers, engineering industries and automobile garages.
